

BlueMedicare Advantage Plan Updates for 2018

Florida Combined Life (FCL) and its affiliate BlueCross BlueShield of Florida (Florida Blue) continually work to improve the quality and efficiency of services to its members, as well as enhance the network management experience by participating providers. As part of this effort, Florida Blue has made changes to the Medicare Advantage products and networks in 2018. Florida Blue has provided a variety of new plans for its members to choose from during the open enrollment period beginning in November 2017 with a January 2018 effective date. In addition, there have been modifications to the existing Medicare Advantage plan names and benefits.

You are receiving this notification because of your participation in FCL's networks. If you do not currently treat members with Medicare Advantage you may have the opportunity to broaden your patient population with the addition of new Medicare Advantage plans for 2018, or you may currently service members that subscribe to one of the already existing plans.

Please update your account management systems with the new plan names for 2018. Information about plan benefits and claim submission instructions as well as our online provider portal can be found on our website at www.floridabluedental.com. Please be sure to verify eligibility and benefits for all members before rendering services.

Should you have any questions, please contact your dental network manager or send an email to our department mailbox at dentalproviderrelations@fclife.com and a network manager will contact you.
